### R.E.DITOR NOTES

I just could not believe the lack of phone calls/emails concerning the article in the Mobile Press Register on Sunday. I have gotten permission to reprint the article, since it is of interest to all of us that are involved in motorsports one way

or another ! Let's hope this is not just another pipe dream of some developers, as some of us have seen in the past.

I have included a full member list which is current as of last week. I intentionally left off phone numbers and email addresses to preclude

GULF COAST REGION SPORTS CAR CLUB OF AMERICA  
Minutes of March 23, 2006

The meeting was called to order by R.E. Walt Wurzbach. There were 19 people attending. The Minutes were approved as published in The Pylon. Treasurer W. Wurzbach reported a balance of \$4,727.

**SOLO II:** R.E. said that only two people answered his question about running events at Skelly. After discussion the consensus was that it is just too far away to be viable. Also Wiregrass is an Army base region so doubt we could get the same deal. R.E. will email Cole Milstead that it is not possible. Everyone agreed that Wolf Field would be ideal. Discussion of Deep South Track at Loxley as a possibility whenever they have their parking lot paved. Question asked on status of Orange Beach which had been mentioned as a possibility. R.E. said that has not worked out; lots of political issues going on with the city. R.E. suggested it may be time to talk with Foley mayor again about Barin Field.

EVENTS:

April 9 — Wiregrass  
April 29 — Divisional event at fairgrounds in Atlanta  
April 8/9 — Track Trial, Kershaw  
April 22/23 — Track Trial school and event at Talladega

MISCELLANEOUS: R.E. shared several emails and other information. Explained the email he sent to everyone regarding a petition to call a meeting to discuss SCCA financial accountability.

There being no further business, the meeting adjourned.

Attending were:

Walt Wurzbach, Topper Jones, Marianne Jones, Jay Scott, Garry Crook, Raymond Worden, Bob Turman, Richard Felis, Anthony McIntire, Diana McIntire, Terry Taylor, Steven Taylor, Bob Malcomson, Katie Malcomson, Tim Clark, Roberta Speh, Jon Pech, Allen Givens, and Mike Dorohoff.

## **Motorsports plans could be finalized by fall**

Investors closing in on  
estimated \$350 million  
professional car racing  
speedway project

**By KATHY JUMPER**

Real Estate Editor

Plans to bring top-level car racing to the Gulf Coast could be finalized in four to five months, according to investors in an estimated \$350 million speedway project dubbed the Gulf Coast Entertainment Complex.

“The sanctioning bodies will not give you a race date until you break ground,” said Rick Edwards, a Point Clear developer and a partner in the project. “Once they know we’re going to build, we’ll get the dates.”

When plans were revealed almost two years ago, the investors said they were focused on landing a NASCAR race. They have now expanded their search.

“We’re interested in Indy- or Formula 1-type races,” Edwards said. “We didn’t want to just limit it to NASCAR.

“We thought if we had a road course, we could open it up for different types of events,” Edwards said. “Big corporations like BMW use road courses for testing when it’s not used for an event. Most tracks in the country are full 70 to 80 percent of the time with non-racing events.”

While stock car racing is the country’s most popular form of auto racing, there are other successful series being run. The Indy Racing League’s annual schedule is dominated by races in the United States, including stops at the two road courses also used by NASCAR’s elite Nextel Cup Series as well as tracks in Nashville, Richmond and Homestead, Fla.

NASCAR’s top drivers usually race on tracks that require only left turns, but twice a year they test their skills on road courses. Watkins Glen International in New York state has hosted a race in NASCAR’s top division once every year since 1986. The other road course on the Nextel Cup Series schedule is Infineon Raceway in Sonoma, Calif. The eight partners in the local motorsports investment group are from Alabama and the Southeast, including two professional drivers and team owners, according to Edwards.

One of the drivers is Rick Skelton, who owns the Hyper-Sport team ([www.hyper-sport.net](http://www.hyper-sport.net)) that competes in the Grand American Road Racing Association. Skelton is also one of the developers of Bon Secour Village, a mixed use community under construction on the Intracoastal Waterway in Gulf Shores.

Another partner is developer Tim James, a former gubernatorial candidate and partner in the Baldwin County Bridge Co., which built the Foley Beach Express toll bridge. Bob Shallow, owner of REMAX Paradise in Orange Beach, is also part of the group. The names of other investors, who Edwards termed well-known, were not released. “Our next step is to buy the property, and then we’ll make a big splash telling who the stars are,” he said.

The name of the race course will likely change, as the investors are seeking national sponsorships, according to Edwards.

## Car racing plans near final lap

*(Continued from page 7)*

The investors have purchase options on four sites, two of them in Baldwin County and two in nearby areas. The Baldwin sites are near the 14-mile Foley Beach Express, Edwards said.

The investors would like to have 1,000 to 1,500 acres. They would plan to use about 200 acres for the track, 500 acres for parking and the rest for retail, restaurants, hotels and condominium units, according to Edwards.

“We have had many discussions with different sanctioning bodies for oval tracks and road courses,” Skelton said last week after returning from the Grand Prix in Long Beach, Calif. “Very few tracks can practice and test over the winter. Fall, winter and spring will be huge for us.”

Additional race venues are great for the motorsports industry, according to Ramsey Poston, managing director of communications at NASCAR’s headquarters in Daytona Beach, Fla. NASCAR —the National Association for Stock Car Auto Racing Inc. — is the world’s largest motorsports sanctioning body.

But NASCAR’s race schedule is full and there is no current plan to expand or lengthen it, Poston said.

NASCAR, owned by the France family, runs about 90 races each year in 25 states through three racing circuits: the Busch, Craftsman Truck and Nextel Cup series. The France family’s holdings include Talladega Superspeedway, which annually welcomes Alabama’s two largest sports crowds.

The Nextel Cup Series has 38 race events per year in a season that runs from February through November.

NASCAR is interested in the possibility of sanctioning races in New York City on Staten Island and in the Seattle area, Poston said. Officials in many of NASCAR’s existing cities are asking for additional races, he said.

“There’s a huge appetite nationwide for more motorsports,” he said.

The local investors are banking on that tremendous fan base to support a Gulf Coast location.

“This project will add to the local economy,” Skelton said. “And the teams want to come down here. They love the beach, they love the area and they love that they can fly their private planes into Jack Edwards Airport. There are a lot of pluses.”

The speedway would complement the existing attractions at the Gulf, said Herb Malone, president of the Alabama Gulf Coast Convention and Visitors Bureau in Gulf Shores.

The Gulf Coast will be able to handle additional traffic, Malone said. Plans are in the works to expand several arteries, including extending the Foley Beach Express to Interstate 10 and widening Alabama 180, or Canal Road, in Orange Beach and Gulf Shores, he said.

Skelton said he will handle vendor sponsorship and track design for the planned road course. A professional driver for five years, Skelton has residences in Atlanta and Gulf Shores.

He drives a Daytona Prototype car and 2007 Ford Mustangs in races around the country. When he competes in the Grand-Am Cup Series, he shares the Mustangs with co-driver Patrick Dempsey, who stars on the ABC-TV series “Grey’s Anatomy.”

## MEMBER NEWS

*Some sad news to report.*

*Ann and I have known Tom and Rose Marie since moving to Alabama in 1984, Rose Marie will be missed by all and our deepest sympathy goes out to Tom.*

Walt and Ann,

Rose Marie passed away April 6th in her sleep while we were visiting my kids and grandkids in Athens, Ga. She had been battling many illnesses over the last 10 years and she was getting weaker by the day. We went out for diner the night before where she was surrounded by 3 generations of family including Jason, Cherie and their 3 and Ashley and Ben and their daughter.

She was very supportive of me and my racing even though she didn't go often she always called to see how I was driving. She was also delighted to spend time with you and Ann at Roebing Road, in fact ya'll were one of the reasons she went with me that weekend.

Please pass the word.

Tom Vincent

any complaints. If you need to touch base with any member, call me or email me and I will get you that information.

Have you ever thought about attending the National Convention ? The location for the next several years in San Antonio should make it possible for some of us to attend. I plan on attending if all goes right just so that I can get Ann to take my picture under the "Wurzbach Highway" sign !

Now that the Skelly event has been cancelled, I plan on departing Alabama on 20 May, for the cooler, might even be cold, northern New York home of my Mother. We plan on surprising her for her 98th birthday, and then spending about a month up there. So, it looks like Topper will have the May meeting and possibly the June meeting to preside over.

I have been working on getting some new forms for National. We were lacking in any kind of officials licensing applications for the Time Trial Program. I have sent in one form to Terry Ozment, Club Racing, for approval. She has recommended some minor changes and I submitted

some other changes to her. We should see these forms appearing shortly on the SCCA web page.

Sorry to say, no news on a Solo II site. After reporting last month that the mayor and police chief of Foley had resolved their differences, I read in the paper that the police chief had quit ! I keep getting updates on our Solo II timing software, but with no events there is no way to check out how much better it is. The documentation is great and Vitek is working on online registration that will link right into the software. Should make the registrars job a lot easier.

Unless someone wants to do the newsletter for the next two months, this will be the last one until July. Keep in mind that we will try to have a party sometime this summer, need a location and some volunteers !

See you at the meeting,

Walt W. R.E.

**Overloaded with projects, NEED TO SELL SOME !** I have two Nissan 300zx 2+2 cars. One is silver with a good body and interior but a bad motor and automatic transmission. The second one is wrecked but has a good motor and standard 5 speed transmission. This was supposed to be a project to put the good motor and 5 speed into the silver car but has just not happened. Neither car is driveable at this time, however they can be moved. Please make me an offer. Contact: Walt Wurzbach, wurzbach@gulftel.com or (251) 945-6150 (4/06)

The Dodge van in the background of the picture above is also available, it too has a bad motor ! This was one of my son's projects. It was a supervisors van for Newman Ambulance Service, has two seats only. Can be had for a measly \$ 400.00 to cover my outlay on the project. .
