New Helmets will be required Next month. Anyone still using a SA 95, M95 or K95 Helmet will need to replace it. The new 2010 Helmets will be on the street in October which means the old standard is not legal for use. If you have a Snell rating of 2000 or 2005 you can still use those. All of the loaner helmets GCR provides are 2005 rated.

As a side note it is probably a good idea to give you helmet a good once over inspection. Check the sticker inside, check for and signs of it being dropped (cracks scratches dents). Make sure the chin strap is not frayed if you have a visor ensure it is clear and not cracked, foggy or scratched in a way to impair your vision.
